Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I strongly object to a large 5G Telecom Mast being built close to our house due to the extreme medical impact this will create. There is proven evidence that this would cause extreme medical illness also due to the amount of radiation the mast would give out. For the Council to create severe Medical issues by installing a Mast is completely unacceptable to expect the general public to the surrounding area to suffer serious medical conditions. This is

completely against our human rights and should not pass the planning application.

Kind regards
