Comments Details

Comment er Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comment s:	The conversion places a high-activity area (kitchen) directly against a sensitive habitable room (bedroom). Appliance noise and early morning and late night activity has caused sleep disruption for myself and my children.

I ask the council consider an acoustic impact assessment, internal layout reconfiguration, or mandatory soundproofing/resilient wall construction (under Building Control Part E) as a condition of any retrospective approval.

With an additional property being 'added', will the council also consider the waste management provisions, bins fill up quickly and there is no clear separation property to property.

Where did you hear about this applicatio n?	Not specified
--	---------------

Kind regards
