Reasons
for
comment:

Comment s:	I note the recent consultation response from Worth Parish Council regarding application DM/26/2166 and wanted to provide some brief clarification regarding the concerns raised.
---------------	--

The proposed garage has deliberately been designed as a low-profile, single-storey structure with a shallow roof in order to minimise its visual prominence within the street scene. It has also been situated sideways on in order to minimise

the impact on the street scene. The external brickwork is also proposed to complement the existing dwelling.

Given the substantial size of the plot, the garage would occupy a relatively limited proportion of the site and a considerable amount of open space would remain around the building and between it and the existing dwelling. We therefore do not consider the proposal to represent an overdevelopment of the site.

Its position, modest height and simple design have also been chosen specifically to minimise its impact when viewed from Hawarden Close, with the existing boundary landscaping providing further screening.

We would of course be happy to discuss any concerns you may have regarding the proposal or consider reasonable amendments if you felt these were necessary.

Where did you hear about this applicatio n?	Not specified
