

Good afternoon. Hope this is okay as a letter of representation.

Dear Mr. Galyas,

Re Planning application DM/26/0978

Please may we address a concern regarding the above application, and use this letter as a letter of representation to do this.

We have a concern that, if the boundary trees on the west elevation of the property are reduced to the height specified a few years ago, or, indeed, removed completely, the dormer windows in the raised roof west elevation would affect the privacy in our garden.

Would it be possible for the west elevation dormer windows be frosted as stated for the north elevation.

Regards,
