

Sustainable Design Statement

PAH East Grinstead

Planning the Process – Pets at Home & Vets for Pets

It's time to take things to the next level. Pets at home are now encompassing the brand Vets for Pets and giving the store a fresh new look along the way

The design concept statement for Pets at Home is to have everything under the same roof, for easy accessibility.

A lot a time and effort has gone into developing the new Pets at Home brand to ensure it works with the surrounding signage.

Working Timeline

Planning	Submitted for Planning
Manufacture	Lead time on manufacture from drawing to finished product 7 weeks 1 week to draw detailed manufacturing drawings with clear instructions for engineers to follow 6 week manufacturing process begins - Signs are then scheduled into the different sections - Metal shop – Acrylic – Printing – Spray shop- Quality Control and Assembly- Packing and Despatch
Installation	Engineers are selected for specific work determined by experience and ability Time for installation is discussed at the beginning of the process to ensure that the work is carried out in a safe and controlled manner Risk and Method Statements are submitted to the Landlords for approval and permits are issued accordingly Access machines are delivered ahead of installations, and delivery of the signs are organised and actioned in unison with the requirements of the site managers.

Pets at Home sites with new Branding
