[REDACTED]
For attention of Ann Biggs/Catherine Cardin

I am writing with reference to the proposed single story extension at 21 Blount Avenue, reference DM/25/1100.

I would request with respect that when this extension goes ahead particular attention is paid to the parking situation on this part of Blount Avenue. I live at number 14 Blount Avenue which is on the corner and have experienced a lot of trouble with vehicles parking at the end of my drive. This totally blocks my view in either direction and makes it dangerous for me and other road users, cars come round this corner very quickly. There are part time single yellow lines on this bend which need to be double yellow lines as they are on all other corners on this estate. I would therefore request with respect that this extension does not result in contractors vehicles or private cars being parked at the end of my drive or elsewhere on this corner, there is plenty of room to park further along the road, away from the corner. This is a safety issue which I have raised previously.

Kind regards,
