

Parking and Highways Supporting Photos – 29 Chilton Grove

1. Current car parked in existing off-street parking, which is to be retained. Space can be seen in front of vehicle which is sufficient for an additional off street parking space and is not a public footpath

2. Current space in front of parked car, which is to be retained. This space is sufficient for an additional off-street parking space.

3. Revers view of photo 2, showing current space in front of parked car, which is to be retained. This space is sufficient for an additional off-street parking space. This image also shows that this area is not a public footpath, which is supported by the site and location plans provided.
