Claire

This is getting silly. I have sought to emphasise throughout the planning process that there will be NO CHANGE in the style or scaling with the new sash windows as this is essentially a RESTORATION project using what is there already but employing modern double glazing techniques. I have sent you this link before -<https://sashwindowheritage.co.uk> -

so that you can see for yourselves just what is involved. It is the sliding sashes that are being removed, restored and put back in the existing frame work with double glazing that faithfully reproduces the original (1907) appearance. It is a custom-made process for the property. I cannot see what more you need! Please, please get your planning officer to look at the website to understand what is proposed.

Dear Colin

Re: DM/26/0607 – 16 Compton Road Lindfield .

Thank you for your Email and plans which were handed in. I have looked at the submitted plans and discussed the application with the planning officer who will be overseeing the application once validated. The Officer has requested that we scaled plans of the windows, i.e. Existing and proposed. If you are unable to provide these, then perhaps you could ask your window supplier for a illustrated or a manufacturers brochure, as we do need to see what the proposed windows will look like. We need full length windows to be shown and ideally in colour as the photographs supplied are of a poor quality and did not show the windows in full .

Please provide a scaled plans of windows or provide a window specification as we need to know the all the sizes of windows and all their dimensions.

Kind Regards
