Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments: I am writing as a local resident to express my support for the proposed change of use of the site to provide a self-storage facility.

I believe this would be a positive addition to the town and a sensible use of the site. It would bring the premises into productive use while providing a valuable and increasingly important service to local residents and businesses.

Self-storage can be particularly useful for residents who are

moving house, downsizing, renovating or simply require additional space. It also provides an affordable and flexible option for local tradespeople, small businesses and start-up companies that may otherwise need to take on larger and more expensive commercial premises. This can help businesses to establish and grow while remaining within the local community.

The proposed business would also bring wider economic benefits, including local employment and ongoing expenditure within the town. Having a professionally operated business occupying the site would also ensure that the premises are maintained, managed and regularly occupied, rather than remaining vacant or underutilised.

I also believe the proposed use should have relatively limited impact on the surrounding area. Compared with many other commercial uses, a self-storage facility should generate relatively little noise, disturbance and traffic, while still providing meaningful economic and community benefits.

From a local resident's perspective, I would welcome the investment in the site and the additional service it would provide to the community. I believe making productive use of existing premises in this way is preferable to allowing a site to remain underused and represents a positive contribution to the future economic vitality of the town.

For these reasons, I strongly support the proposed development and respectfully ask the Planning Authority to look favourably upon the application and grant the required planning permission.

Kind regards
