Product details

Top highlights

- ✓ See faces and vehicles clearly, ignore false alerts
- ✓ Vivid color footage at night with dual-light system
- ✓ 3TB hard drive stores weeks of continuous recording

Summarized from product information ✦

- **【Full Colour Night Vision with Dual Light System】**
See vivid colour footage at night thanks to the dual-light design, providing clear visibility in low-light conditions without the need for extra lighting.
- **【5MP Super HD with IP66 Weatherproof & Built-in Microphone】**
Crisp 5MP clarity is now built for the UK outdoors. The camera's IP66 waterproof rating and durable housing withstand rain, wind, and temperature shifts, while its built-in microphone provides audio monitoring for added peace of mind.
- **【Smart Human, Vehicle & Face Detection – Fewer False Alerts】**
Advanced AI recognises people, vehicles and faces while filtering out pets, leaves and insects. You only get meaningful notifications, reducing unnecessary distractions.
- **【H.265+ Compression & Continuous Recording】**
Efficient H.265+ video compression saves up to 50% storage and bandwidth. Supports 24/7 recording (Pre-installed 3TB hard drive).

- **【Works Without Internet – Local Monitoring & Remote Viewing】** Use directly with a monitor for plug-and-play local surveillance via P2P. Connect to a router to enable remote live viewing from your smartphone anytime, anywhere.
- **【Wide DVR Compatibility & Easy DIY Setup】** Compatible with most AHD, TVI, CVI and analog DVR systems. Includes ready-to-use cables and adapters for straightforward installation.
