Dear Andrew,

We are required to ensure that descriptions of development accurately describe the proposed development. As it stands the current description does not specify where the extension is to be positioned and does not refer to the dormer window.

As you have set out the previous application was determined in 1987. The planning history is a consideration for each planning application and it has been clearly referred to in the supporting statement.

Given this, please can you therefore confirm that you would be in agreement with the description being updated to read:

“Two storey side extension incorporating the existing garage and a dormer window within the side roofslope”

Kind regards,
Caroline

Thanks for making contact. The application matches the proposal that gained permission in 1987 exactly so ideally the description would also match, which it currently does.

I hope this makes sense.

Thanks

Andrew
