Details of the pre-application advice received

That the proposed replacement windows will be constructed in timber, in a design to reflect the current sash style, with the same weighted sash opening details and the overall design and appearance of the current windows, with 4mm slimline double glazed units to replace the single glazing.

The Conservation Officer requested that functional glazing bars are included to break up the glazed panels, to respect the appearance of the existing windows. The thermal and noise insulating properties of double glazing would be taken into account in the determination of an applications.

It is understood that the door is also to be a replica, constructed in timber, with the same door knocker and post box retained and reused to give the new front door the same external appearance, to preserve the appearance of the house.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
