Subject: Objection to Application DM/25/3095 - Extension 40 Gander Hill, Haywards Heath, RH16 1QX

[REDACTED]

Dear Andrew

Our home in Summerhill Lane backs onto the rear of the above property. We object to the large glass area above the windows of the proposed extension, which is likely to cause light intrusion into our house, spoiling the peaceful enjoyment of our property.

When the previous major extension was done to 40 Gander Hill about 17 years ago, the owners installed a tall landing window from the first to the second floor. There are no curtains on this, which means that we are disturbed by light intrusion in our garden and especially into our rear bedrooms at night, despite buying blackout curtains to reduce this. We are concerned that this new glass area above the proposed first floor window will cause further light pollution, affecting our sleep.

Thank you for taking our concerns into consideration.

With kind regards
