FACE BRICKS (page 1)

MANUFACTURER: MICHELMERSH
RANGE: FRESHFIELD LANE FIRST QUALITY MULTI

The dimensions match the existing brick bond. 215mm x 102.5mm x 65mm clamp-fired stock facing brick from Freshfield Lane is a red multi colour with hues of orange, purple and brown. The clay is excavated and baked at Freshfield Lane. This is located under 3 miles from Henfield Place.

We are proposing to use the darker multi colour brick to match the tones of the Western addition. Thus, the original central "red" brick area will stand out as the original central construction, with our additions reflecting one another either side, East and West.
