TPO Details

Further Details	
Are you seeking consent for works to tree(s) subject to TPO	Yes
Are you wishing to carry out works to tree(s) in a conservation area?	No
If you know which TPO protects the tree(s), enter its title or number	BK/02/TPO/06
Please identify the tree(s) and provide a full and clear specification of the works you want to carry out	The subject tree is a mature oak specimen that affords amenity value to the surrounding properties. It is the single tree on the TPO. This application is for the tree to be felled for risk-mitigation purposes.

Additional Information

ADDITIONALINFORMATION	
For all trees	
Sketch plan clearly showing the position of trees listed in the previous question	Picture 1.png (download)
For works to trees covered by TPO	
Please provide a reason why you wish to perform these works	The tree has been assessed of risk of failure using the VALID Tree Risk-Benefit Management and Assessment methodology. This identifies the risk as Not Tolerable and therefore, the tree cannot be retained in its current form. There is potential for significant pruning to enable retention; however, this would provide only short-term benefits as it would likely lead to a further reduction in the tree’s vigour, and an increase in the rate of decay which would only compound the current issues. Full assessment it attached.
Condition of the trees(s)	Yes
