Dear Mr King,

Ref:Planning applications by Eden development DM/23/3159; DM/24/2951

I understand you are in receipt of an objection e-mail dated 29/01-25 sent from [REDACTED] of Kleinwort Close objecting to the provision of only 3 trees on the northern boundary of this proposed development, in order to accommodate extra car parking. I too live in Kleinwort Close very near the northern boundary concerned and have already objected to various issues in earlier missives which are documented in the previous applications. I fully support [REDACTED] concerns about the lack of trees and would urge MSDC to reconsider what Eden are proposing to provide in the way of boundary growth, and to consider us retired folk who live in the adjacent dwellings.

Yours sincerely

[REDACTED]
