You don't often get email from developer.services@southeastwater.co.uk. [Learn why this is important](#)

Good morning Ann,

I am emailing to inform you we have received your formal letter sent 9th January 2026, and received 14th January 2026.

Upon review, we would only require notification of any works that interfere with South East Water assets within the public boundary.

If the works concerning the property outlined above required works that cause potential interference you will need to plan your works safely and avoid damaging our network. To ensure this you may first obtain an Asset Plan. This will show you the approximate location of our water mains and apparatus in your area.

How to get an Asset Plan: You can apply for access to our mapping website online. Please visit the link below to get started:

<https://www.southeastwater.co.uk/get-help/asset-plan-request-form>

If you have any questions regarding the maps or need to send us your OS licence, you can email our Mapping Team at water.maps@southeastwater.co.uk.

Working near our assets: Please be aware that no works can commence over our assets:

- **Prohibition:** We do not permit the construction of permanent or temporary structures directly adjacent to or over our water mains or apparatus.
- **Safe Distance:** Generally, no structure is allowed within two metres of a public water main. This distance may increase depending on the size of the pipe.

If your proposed works fall within these restricted areas, you must contact us immediately. You may need to apply for a diversion of the water main before any construction can begin.

If you have any further questions, please contact us on the details below.

Got questions? Check out our

FAQs: <https://www.developers.southeastwater.co.uk/help/faqs>. Or, give us a call at 0333 000 0060 or email developer.services@southeastwater.co.uk.

Kind regards,

Amelia

Developer Services Team
