Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application

Reasons for comment:

Comments:	Homes in the village need to be suitable for families and having appropriate glazing and space for cars are essential for that. Surely making our homes fit for families and making them energy efficient is more important than anything else. If we don't support home owners to make their houses warm and safe then and instead stick to outdated ideas of what houses should look like based on a nostalgia for the past then we are valuing the wrong thing.
-----------	--

Please consider this families needs above the concern of a few

changes that most of the village won't see. Our community has people in it with a wide variety of needs including young families, older people and people with disabilities if we put the buildings in front of the adaptations needed by actual humans we are completely missing the point.

Kind regards
