Reasons for comment:	
Comments:	My support for this application is because this planning application will enable the Church of Scientology to continue hosting and supporting human rights and interfaith activities, not only in the UK, but around the world.

Every year I (and many others) bring people of different religions, and involved in different human rights activities, to the annual event where others are honoured for the dedication to these principles and goals (as I am myself as Director of an interfaith group and a member of a number of human rights organisations). Furthermore, the Church of Scientology holds many events throughout the year that benefit the local area both in terms of community spirit as well as bringing financial investment to the area. Examples of this are the 'Easter Egg Hunt' which attracts some thousands from the local community, open air musical events, not to mention giving to local charities in the area which has been happening for many years now. Financial investment comes from people travelling to the UK, staying in local hotels and other accommodation, eating at restaurants and buying in the shops of East Grinstead.

I believe this application to be well thought out and to cause minimal disruption to the neighbourhood whilst bringing about maximum benefit.

Kind regards
