Reasons for comment:	
Comments:	I am writing in support of the proposed padel court within the industrial unit in Burgess Hill. This is exactly the kind of positive, community-focused use that adds real value to the area. Providing accessible sports facilities will be a significant benefit for local families, including my own children, by encouraging physical activity, social interaction, and healthy lifestyles in a safe and structured environment.

From a planning perspective, the proposal represents a clear improvement over traditional industrial use. A padel facility is likely to generate substantially less heavy vehicle traffic, noise from industrial operations, and general disruption. Instead, it introduces a low-impact, well-managed use that aligns more closely with the needs of a growing residential community.

It also supports broader objectives around wellbeing, community cohesion, and the activation of underutilised spaces in a more socially beneficial way.

Overall, this is a thoughtful and practical proposal that will enhance the local area, and I strongly support its approval.

Kind regards
