[REDACTED]
Dear Mr Swift,

I'm writing this email thinking that it's probably pointless. Because like any other planning put forward to build more houses in East Grinstead, always gets the go ahead!!!

None of you are at all interested in the public's views and concerns. People like me who have lived in East Grinstead all our lives have watched a small thriving market town change so much. Housing where fields used to be. Office buildings turned into flats everywhere.

Traffic has become a nightmare in the town. Cars parked everywhere. The one-way system is at gridlock every day.

I have lived around Dunnings Road all my life (60 years). I grew up in a tide cottage in the grounds of the Sunshine Blind Babies Home on the West Hoathly Road before moving to Stockwell Road. Now, I live in Forest View Road.

I don't want 44 houses built!!

The West Hoathly Road is now a race track and building these houses is a dangerous decision.

Pulling out from any of the dwellings on this road is dangerous. The speed limit is 30mph but cars drive much faster. Even driving up through the Hollow towards Saint Hill Green is terrifying because drivers don't give way coming down and are quite often in the middle of the road.

The field planned for these houses has always had sheep grazing and it's heartbreaking to think that you want to take away something that's always been there. Part of my childhood and the same for many others.

Please don't let this happen.

Kind regards
