Dear Debbie,

I have reviewed the Arboricultural Impact Assessment, Arboricultural Methods Statement and Tree Constraints Plan and Tree Protection Plan for this proposal. I note the RPA incursion of T2, the category C oak, and the protection measures described in the AMS are sufficient to protect this tree. I only have a slight concern for the future pressure this proposal may place in this tree. However, as it is a category C tree, it is not a constraint to development. The rest of the trees should be adequately protected by the measures described in the AMS and on the TPP.

I have no objection.

Please condition adherence to the AIA, AMS< and TPP.

Kind regards

Emma
