[REDACTED]

Dear Sir or Madam,
We write in connection with the RMA application by Cala.
The site plan and road layout should be submitted for public consultation since many houses will be affected by the road location in the middle of the site. The buffer zone is also inadequate.
The Community Hub does not have a clear function and needs consultation to determine its function in relation to its proximity to the Rawson Hall which is a community hall largely paid for by the Village.
The range of houses proposed and their appearance does not reflect the character of Bolney village and is far too like a housing estate than a village.
We remain concerned at the access from the A272 . The proposal shown is an accident waiting to happen!

Yours sincerely
