

Application No: DM/25/0393
Re: The Royal British Legion, Planning Application

I would like to object to the proposed first floor extension above the existing ground floor, addition to the front of the building.

It will be overbearing, on my property, as the existing high part of the building is past my property,

I have a window that side of my property.

It is not in keeping with the area!!.

This is a residential area!!.

If this extension goes ahead, where are people going to park, there is 2 hour parking limit, on the road outside, there is enough issues with parking as there is.

Driveways are all ways being blocked, it difficult to see what is coming up and down the road, there are school children walking to and from school.

I am a professional driver.

I have no problem with them using the existing building for what they want to.

I hope the bin store is kept away from my property, I understand they need to keep bins somewhere.
