Thank you for requesting advice on this discharge of condition from Place Services' ecological advice service. This service provides advice to planning officers to inform Mid Sussex District Council planning decisions with regard to potential ecological impacts from development.

Application:	DM/26/2064
Location:	Burgess Hill Northern Arc, Land N And NW Of Burgess Hill, Between Bedelands Nature Reserve In The East And, Goddard's Green Waste Water Treatment Works In The West
Proposal:	Discharge of Condition 8 (CEMP) in relation to planning application DM/21/3279 in respect of reserved matters area DM/25/1986 (Phase 1C)

Thank you for consulting Place Services on the above discharge of Condition application.

Condition

Condition 8. Prior to the commencement of development within each reserved matters area, a Construction Environmental Management Plan (CEMP) shall be submitted to and approved in writing by the Local Planning Authority in respect of development within that reserved matters area. The CEMP shall include amongst other matters details of:

- o The appropriate Mitigation Measures stated as being contained within the CEMP in Table 16-1

'Summary of Mitigation Measures from within the Technical ES Chapters', Chapter 16 Mitigation Register, of the Environmental Statement Volume 1 (December 2018).

- o setting out avoidance and mitigation measures in respect of wildlife and habitats;
- o a timetable for the commencement, construction, occupation and completion of the development;
- o the anticipated number, frequency and types of vehicles used during construction
- o the method of access and routing of vehicles during construction and directional signage for the purposes of such
- o the siting and layout of site compounds and welfare facilities for construction workers
- o the provision of parking of vehicles by site operatives and visitors
- o the provision for the loading and unloading of plant, materials and removal of waste
- o the provision for the storage of plant and materials used in construction of the development
- o the design, erection and maintenance of security hoardings and other measures related to site health and safety
- o hours of construction working;
- o details of construction lighting;
- o measures to monitor and control noise and vibration affecting nearby residents;
- o the provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway, including the provision of temporary Traffic Regulation Orders;
- o dust control measures;
- o pollution incident control and site contact details in case of complaints;
- o a scheme for community liaison and public engagement during construction, including the provision of information to occupiers moving onto the site before the development is complete
- o contact details of site operations manager, contracts manager, and any other relevant personnel.

The CEMP shall be in accordance with the Ecological Impact Assessment Section 73 Application - Incursions to Ancient Woodland (AECOM Limited, April 2022)

The construction works within that reserved matters area shall thereafter be carried out at all times in accordance with the approved Construction Environmental Management Plan, unless any variations are otherwise first submitted to and approved in writing by the Local Planning Authority.

Reason: To protect the local landscape, biodiversity within the site, the local environment and neighbouring residential amenity and to accord with Policies DP9, DP26 and DP38 of the Mid Sussex District Plan.

Comments

We have reviewed the Construction Environmental Management Plan (Hill Group Ltd, September 2026) which has been submitted in order to discharge Condition 8.

The submitted Construction Environmental Management Plan (CEMP) provides generic ecological measures, which are not considered sufficiently robust to demonstrate protection of irreplaceable habitat, protected and Priority species / habitats.

We recommend that applicant corresponds with their Suitably Qualified Ecologist who is providing information to meet the requirements of Condition 20 of DM/23/0747 to include detailed ecological mitigation measures within this CEMP.

Recommendation

We are unable to recommend the discharge of Condition 8 at an ecological perspective until the additional information outlined above has been provided.

Please do not hesitate to contact us if you have any queries in relation to this advice.

Yours sincerely,

Hamish Jackson ACIEEM BSc (Hons)

Senior Ecological Consultant

Place Services at Essex County Council

Place Services provide ecological advice on behalf of Mid Sussex District Council.
