Subject: DM/25/1270 - County Matter?
Attachments: mw_safeguarding_guidance.pdf

You don't often get email from tyra.money@westsussex.gov.uk. [Learn why this is important](#)
Good morning,

An application has been submitted to Mid Sussex District Council which falls within a minerals site (Freshfield Lane Brickworks). The application in question is for 10 car ports and solar panels etc, application no. DM/25/1270. The location and proposed development in the submitted information would suggest that the application is a County Matter, under Schedule 1 of the Town and Country Planning Act 1990. Therefore, the application should have come to West Sussex County Council for determination. Could you ensure that the application is resubmitted to WSCC.

Please note that if there is proposed development on a minerals or waste site that you contact us for advice. As even if the application mentioned above was not considered as a County Matter, any application within 250m of minerals infrastructure or within a minerals consultation area is required to be sent to WSCC as a MWPA for comment. Please see our Minerals and Waste Guidance attached.

Happy to discuss if you feel that it isn't a county matter. Feel free to contact me.

Kind regards,

Tyra Money
