Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	This upgrade and improvement to the grounds listed will be of great benefit to the local community as it will create more income for the area, due to the many local events held through out the year. It will also ease the flow of attendees to the annual IAS event, held over one weekend, when thousands of people come to Saint Hill. This in turn will reinforce the boost in the economy for the local businesses that will supply support and accommodation. There is also the charity event held on the same weekend, which always includes local charities. Overall this development will aid the environment and the local community in the long run.

Kind regards
