Commenter Type:	Neighbour or general public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I support this as the community events that Saint Hill put on throughout the year are great for bringing the community together. The yearly celebration in October brings thousands of people to the UK and impacts the economy very positively not to mention the support of local charities during this event. With the amount of people who come, as it is out of season, supports local hotels, B & B, guest houses etc. It has a very big, positive impact upon the local businesses. This field will be used for the local sports clubs for their events which will relieve pressure on local streets. The project promotes energy efficiency through the use of a designated drop-off area for taxis, car sharing and shuttle services for community events. I love that it will be reinforced grass, this will make a big difference to how the field will look. The grounds are always kept immaculate and this project will be in keeping with that. With this planning, everything has been thought of including new restrooms for inclusivity. I am very much in support of this project.

Kind regards
