**Reasons for comment:**

**Comments:** This has to be recognised by the planning team as a truly wonderful improvement to the building itself.  
The area will benefit from the improvements and from the buildings improvement and accessibility.  
It is a great planned and well thought design.  
It is sympathetic to the immediate area and neighbouring

properties.

In keeping to the best ability to the street scene.

The building needs new life. It was being aloud to sit and decay.

With major issues that would have been seen overtime.

This fantastic plan for the building removes any greater impact that in time could of seen a need for demolition.

I fully support the right to allow the planning application as it is detailed.

I fully support the planned use of the designed and assigned usage of the building.

It can only be seen as beneficial to all immediate residents and to the wider area. The connected plan as a home and space for the youth as purposed space to use and to be home again for their benefit will be pivatol to many children over the coming years.

I am very proud to support and be counted as a member of the community that totally commends and supports this.
