We would like to object to the proposed Fairfax housing development and the associated Parkland Reserve or Country Park.

The plans do nothing to enhance the biodiversity or the natural beauty of the area. Effectively doubling the size of the local population can only be harmful to wildlife and damaging to the environment. We have lived in Cuckfield for 25 years and make full use of the plentiful country walks and network of paths we are blessed with, especially to the south and west of the village. How will the huge increase in cycling, dog walking etc benefit wildlife?

The Parkland Reserve covers an area that is already relatively undisturbed and is home to foxes, badgers, deer and a large variety of birds. Please let it remain as it is to the benefit of us all, the environment and the wildlife, (apart from the developers!).
