Subject: 2024-10-11 RE: DM/24/2214 Lingworth, 17 Oathall Road, Haywards Heath

Dear Andy,

Thank you for reconsulting the Flood Risk and Drainage Team on the above application, please find below our latest response:

In line with the MSDC Flood Risk and Drainage Information Checklist, given the scale of the development (large extension), the level of detail required to address each information point at the application stage has not been provided.

No details have been provided as to the intended surface water disposal route, only that Sustainable drainage solutions have been incorporated into the design. No evidence has been provided of this.

Information into our general requirements is included within our 'Flood Risk and Drainage Information Check List – Application Stage'. <https://www.midsussex.gov.uk/planning-building/flood-risk-and-drainage-for-planning/>

Kind Regards

**Flood Risk and Drainage Team
