Annexe Plus E Asgard Secure Steel Bike Store

Proposed for the rear garden at each plot.

The Annexe Plus E high-security bike storage shed from Asgard is a maximum security (all-metal) bike shed.

A UK made bike shed to store your most expensive bikes as well as all your cycling accessories, spares and clothing gear in one place. If you are in a high-risk area where security is an issue, or you just enjoy peace of mind, you'll need maximum protection for your bikes. As with all Asgard storage, the Annexe high-security bike storage shed is built from very thick, heavy-gauge galvanised steel panels and features our heavy-duty integral metal floor - for even more bike security Asgard supply each of our bike storage sheds with heavy-duty ground bolts, allowing you to secure the bike shed to the ground for security.

Police & Locksmith Approved Bike Storage

This high-security bike storage shed weighs in at an impressive 16 stone and has a tough 5-point locking system, featuring a drill and pick-resistant locking system. The door and door surrounds are reinforced with 1.6mm box sections to resist crowbar entry as well as a strengthened base plinth to prevent crushing when heavy objects are rolled in. The side door has 10mm steel bolts for additional security. All these additional attack-resistant features mean that the Annexe shed is a Police approved shed.
