To whom it may concern

The application for 9 self build dwellings on Floran Farm Crawley Down.

I am very much in favour of this application for many reasons.

This helps to diversify the housing market. It's an affordable option for the Crawley Down community. This should be supported by the local planning department for people to get on the housing ladder.

To have this opportunity to be on a small self built development is a rare and innovative solution. I believe this needs to be executed to be delivered the community to give people the chance to adopt this with the housing solution.

Locally we are being surrounded by large new estates. To have a handful of houses self built would be a a good opportunity and a practical solution.
