| <b>Application:</b> | DM/26/0583                                                                              |
| <b>Location:</b>    | Land Adjacent To Jane Murray Way And North Of Gatehouse Lane<br>Goddards Green Hassocks |
| <b>Proposal:</b>    | Discharge of condition nos 5 and 7 relating to planning application<br>DM/25/0110       |

Thank you for consulting Place Services on the above discharge of condition application. We can only comment on conditions related to ecology.

### **Conditions**

#### **Condition 5: Further Information Required**

Prior to any works above slab level, a Biodiversity Enhancement Strategy for protected, Priority and threatened species, prepared by a suitably qualified ecologist in line with the recommendations of the Ecological Impact Assessment (Waterman Infrastructure & Environment Ltd., February 2025), shall be submitted to and approved in writing by the local planning authority.

The content of the Biodiversity Enhancement Strategy shall include the following:

- Purpose and conservation objectives for the proposed enhancement measures;

- detailed designs or product descriptions to achieve stated objectives;
- locations of proposed enhancement measures by appropriate maps and plans (where relevant);
- persons responsible for implementing the enhancement measures; and
- details of initial aftercare and long-term maintenance (where relevant).

The works shall be implemented in accordance with the approved details shall be retained in that manner thereafter.

Reason: To enhance protected, Priority and threatened species and allow the LPA to discharge its duties under paragraph 187d of NPPF 2024 and s40 of the NERC Act 2006 (as amended) and to comply with Policy DP38 of the Mid Sussex District Plan

### **Comments**

We have reviewed the Covering Letter (Waterman Infrastructure & Environment Ltd., March 2026), which has been submitted in order to discharge Condition 5.

We agree that there are limited options for bespoke biodiversity enhancements for protected, Priority and threatened species for the proposed application and that wider enhancements will be secured as part of the Brookleigh development, as outlined under the Ecological Impact Assessment (Waterman Infrastructure & Environment Ltd., February 2025) submitted at application stage.

However, as this condition has been secured as part of this specific development, we recommend some minor bespoke enhancements must be identified as part of this application. As a result, we suggest that this could include the provision of log piles and/or bat and bird boxes where appropriate locations are available.

### **Recommendation**

Further information is required prior to the discharge of condition 5.

Please contact us if you have any queries in relation to this advice.

Yours sincerely,

**Hamish Jackson ACIEEM BSc (Hons)**  
**Senior Ecological Consultant**  
Place Services at Essex County Council

Place Services provide ecological advice on behalf of Mid Sussex District Council.

*Please note:*

*This letter is advisory and should only be considered as the opinion formed by specialist staff in relation to this particular matter.*

*We are unable to respond directly to applicants/agents or other interested parties. Any additional information, queries or comments on this advice that the applicant/agent or other interested parties may have, must be directed to the Planning Officer at the relevant LPA, who will seek further advice from us where appropriate.*
