Subject: Objections to planning in huntsland in Crawley Down

[REDACTED]
Hi Steven, I hope this email finds you well you well,

The building of homes in the huntsland area will generate an enormous amount of traffic along turners hill road, me being a resident along said road. It is already hard enough to pull out of my drive with all the cars but adding another 500 odd houses will make this issue 10x worse.

If these houses are built, where will the residents of the new estate go for a gp?
Crawley downs Gp is bad enough and adding another 1000 people to the waiting line is going to make getting an appointment near impossible.

Schools? Where are the odd 300 children going to go to school?
Both turners hill and Crawley down are full up, how do you find space to accommodate the children?

Please take what I said into consideration, and remember all the animals habitats you will destroy doing so.
