Stefan

Thank you for your email.

Further to our telephone conversation just now, I am writing to confirm that the new windows to 2 Preston Cottages will all be exactly as shown on the planning permission drawings, in terms of size and equal window panes.

The details submitted on the condition discharge application are the standard details provided by the timber window supplier. They do not provide details of the specific windows that will be manufactured and installed - only standard details of the window frames. The new windows will be the same design as the planning approved drawings.

Please can you confirm that this condition can be discharged on the basis of this confirmation email.

Many thanks in advance,
Sarah
