Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to the planning of the housing going in off West Hoathly Road. Building these house would mean many more cars on a road completely unsuitable to take this traffic. Parts of West Hoathly Road are single tracks or extremely tight so often get busy. Dunnings Road has many cars parked along it already making it extremely difficult to get through. There is also a concern about the amount of collisions these roads have seen in the last few years due to the amount of cars on this road and the fact these roads are not suitable for high traffic density. Adding

more housing would make this even worse and be a huge highway safety issue. Along with the highway safety issue is the significant increase in noise pollution, light pollution, vehicle pollution and disturbance this would cause to the local area. The area chosen is also an area of outstanding natural beauty which building these houses would completely destroy. It would also mean cutting down important trees and ruining protect species habitats. There is also no infrastructure in place to be able to accommodate these house so where would the people moving in go to the doctors, schools etc.

Kind regards
