To whom it may concern:

Re: retrospective planning permission for 4 Ashenground Close, Haywards Heath, RH16 4PT

It has recently been brought to our attention that the owner of the above property has applied for retrospective planning permission for a front garden wall which has already been built, along with some other works.

We wrote on June 3rd to voice our concerns and these continue to stand.

The wall is totally out of keeping with the rest of the neighbourhood where we have either green hedges or low brick walls or fences and it significantly impacts in an adverse way on the overall look of the cul de sac Close.

Kindly take our objection into consideration.
