5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☐ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

N/A

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Tree 1: Flowering Cherry Tree. Reduce crown by approximately 20 ft across top and shape sides. Crown lifting to low or straggling branches interfering with small larch (B).
Tree 2: Weeping Silver Birch. Originally tree styled like umbrella but over last few years to top part of trunk now grown too high. Reduce Crown by 6 to 7 ft to flatten top and trim circumference of tree by 3 ft all round.

7. Identification Of Tree(s) And Description Of Works continued ...

Tree 3: Copper Beech – reduce crown by 15 – 20 ft and shape tree. Crown lifting by 2 or 3 lower branches to left further from ground and allow light to garden and hedging below.

Tree A Magnolia – would like authorisation to remove this small tree to give more light under birch and copper beech. Not fully decided to remove but would like option.

Main reasons for tree reductions is to give more light to the garden which is having a negative impact on hedging, shrubs and small trees below.

Cherry Tree – some higher branches growing out towards cottages.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
