Description of Proposed Works

Please describe the proposed works

The proposal is for a two-storey side extension to the existing dwelling, projecting approximately 2.5 metres from the current side building line. The ground floor of the extension will provide additional space for a study, utility area, and staircase, while the first floor will accommodate a new en-suite and main bathroom.

The extension will feature a pitched roof that continues in line with the existing roof form, maintaining architectural coherence with the main house.

In addition to the side extension, the proposal also includes a west facing single storey extension in line with the existing conservatory to introduce a larger internal living and kitchen space on the ground floor. There is also a new replacement to the structurally damaged front porch.
