Address: 30a Shepherds Walk Hassocks

Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	In light of the absence of robust evidence confirming the safety of 5G emissions, a cautionary approach is essential. A new medication would be subject to far more scrutiny. There appears to be an increasingly large body of evidence suggesting potential harmful effects to humans and all living

beings of such emissions.

Hence, the duty of care to our local population (both human and otherwise) would be breached by the planned masts.

I hence object strongly.

Kind regards
