Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I lived in Burgess Hill for most of my life and my family and friends still live there. I usually come to Burgess hill several times per week. It has come to my attention that there is a proposal to put a 5G mast at: The Land at Ockley Park, Ockley Hil, Ockley Lane,

Hassocks, West Sussex.

I strongly object to this being installed. If you take the time to look at the evidence, you'll know how detrimental it is to all living things, including humans. There is extensive research which has unequivocally linked 5G to serious health conditions, being extremely harmful to wildlife, not to mention how much power they consume and how they enable mass surveillance.

Please listen to the people and don't put us and nature at risk.

Kind regards
