Subject: Objection to planning Application DM/26/0452

[REDACTED]
Dear Caroline,

Thank you for your call last week.

As discussed I am writing to object to this application as it does not appear to have fundamentally changed from the last application which was turned down.

As per previous the build will lead to loss of aspect for us and also severely affect the light on our stairwell and cause risk to us due to the darker access.

Please can we receive a copy of the outcome of the application?

Kind Regards,
