Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I absolutely object to the new development of 49 new houses on Wickham Fields. Only this week I have had an email from south east water to limited my water use !!! So how will building another 49 houses help this matter, they can't supply enough water as it is let alone build more houses .
Wickham Fields is a valuable asset to all local residents. It provides a safe place for our children to play, exploring nature helps with their mental health and gets them outside . It is also used by all the dog walkers in the area and has been for years. Developing this field is just about money and not taking the local residents into consideration at all, it will increase pressure on all local infrastructure including the water shortages that are already in place. Please do not build any more houses and take our green spaces away .

Thank you

Kind regards
