Dear Anna,

I am writing with regards to the letter I received regarding the planning application DM/25/1800 Woodside Grange, Hassocks. Please find my comments below:

- My husband and I object to the car park planned at the north side of the boundary. This is directly in view, over the hedge from our property – 8 Price Grove BN68GQ. It would be helpful to understand what exactly is planned for this space e.g. how many cars, will there be garages, will the hedge and treeline be built up?
- All existing trees and hedgerows opposite Price Grove and Martin Gardens BN68GG should be maintained like for like, or improved
- The derelict, corrugated iron shed should be removed during the works
- Houses will not be built directly in front of our property
- The treeline and woodland area directly in front of our property should not be impacted
- I would like to understand more about the construction work of the housing and any of work to carried out – my home office is directly opposite the treeline, and my work is of sensitive nature (mental health), therefore cannot be impacted by continuous noise from construction/building work

Please keep me informed of any planning committee meetings.

Best wishes,
