Hi Chris

I'm writing with regards to the above conditions discharge application, specifically condition 28.

In order to clarify what is shown on the attached plan, I'd be grateful if it could be set out in what sequence it is proposed to undertake these works. I would assume that it would be those elements that have full planning permission first and then the areas that would obtain reserved matters approval. I appreciate that this sequence may change during the build so I would suggest making reference to that in the supporting explanation and then this can be referenced in the discharge of the condition.

Regards

Steve
