Subject: RMA ref. No. DM/26/1961

I am writing to submit my comments on the RMA DM/26/1961 relating to the proposed development of 198 dwellings at Foxhole Farm Foxhole Lane Bolney

My concerns relate to the reserved matters of appearance, landscape, layout and scale as well as the wider cumulative impact of this major development on Bolney.

Although outline planning permission has been granted the detailed layout and scale now proposed appears to intensify development beyond what is sympathetic to the character Bolney.

A large percentage of residents in Bolney have lived here for many many years - some all their lives and this development will create a major change. I do feel quite strongly that CALA should organise a consultation meeting in our village hall to listen and answer residents many questions e.g. the buffer zones, the road, the community hub, house design just to name a few.
