 (i) New footway and carriageway, etc. ....

Part 2.1. To be completed where the application relates to the laying-out or construction of new streets, in accordance with New Street Plans to be submitted with the application (See Direction 7).

12. Detail description, including Materials and Dimensions :-

- (a) Sewer drainage .....
- (b) Surface water drainage .....
- (c) Soil sewerage .....
- (d) Carriageway foundations .....
- (e) Carriageway surfacings .....
- (f) Kerbing and channelling .....
- (g) Footways .....
- (h) Verges .....
- (i) Street lighting .....

13. State whether it is intended to construct to the Highway Authority's satisfaction with a view to taking over .....

PART IV. To be completed where permission is sought for the formation or laying-out of new, or the alteration of existing, means of access to a highway, in accordance with particulars shown on accompanying Block Plans. (See Direction 5).

- 14. (a) Purpose for which new or altered access is required (e.g. to new dwelling houses, to new garages, for agricultural purposes, etc) .....
- (b) Whether access is required for pedestrians or vehicles or both .....
- (c) Proposed width of access .....
- (d) Materials proposed to be used in construction or alteration of access .....
- (e) Any existing accesses are to be shown on a block plan. State here their widths and the purpose(s) for which they are now used .....

15. To be completed where permission is sought for the underground or surface working of minerals in respect of land to be indicated on Site Plans submitted with the application. (See Direction 6).

15. If it is proposed to use the land for the winning and working of surface or underground minerals, state :-

- (a) The type of minerals to be extracted .....
- (b) The estimated quantity to be extracted yearly .....
- (c) The method, direction and estimated rate of working .....
- (d) How it is proposed to deal with overburden, and the proposals (if any) for the treatment of the land after extraction .....
- (e) In the case of surface working, the estimated maximum depths of the excavations .....

Part 2.1. To be completed where the application relates to the laying-out or construction of new streets, in accordance with New Street Plans to be submitted with the application (See Direction 7).

12. Detail description, including Materials and Dimensions :-

- (a) Sewer drainage .....
- (b) Surface water drainage .....
- (c) Soil sewerage .....
- (d) Carriageway foundations .....
- (e) Carriageway surfacings .....
- (f) Kerbing and channelling .....
- (g) Footways .....
- (h) Verges .....
- (i) Street lighting .....

13. State whether it is intended to construct to the Highway Authority's satisfaction with a view to taking over .....

PART IV. To be completed where permission is sought for the formation or laying-out of new, or the alteration of existing, means of access to a highway, in accordance with particulars shown on accompanying Block Plans. (See Direction 5).

- 14. (a) Purpose for which new or altered access is required (e.g. to new dwelling houses, to new garages, for agricultural purposes, etc) .....
- (b) Whether access is required for pedestrians or vehicles or both .....
- (c) Proposed width of access .....
- (d) Materials proposed to be used in construction or alteration of access .....
- (e) Any existing accesses are to be shown on a block plan. State here their widths and the purpose(s) for which they are now used .....

15. To be completed where permission is sought for the underground or surface working of minerals in respect of land to be indicated on Site Plans submitted with the application. (See Direction 6).

15. If it is proposed to use the land for the winning and working of surface or underground minerals, state :-
