Comments Details

Commenter Type:	Neighbour or general public
Stance:	Customer made comments neither objecting to or supporting the Planning Application

Reasons for comment:

Comments:	We would like to make the following comments in respect of the above planning application 1. We have not received the neighbour consultation letter which, according to the planning portal, was sent on 7 July. We only found out about the change in plans when checking for progress with the first application. We have checked with our immediate neighbour and they did not receive the letter either so were unaware of the updated planning application.
-----------	--

2. We do not object to the tree application providing it follows the tree report and does not unbalance the tree, which also overhangs our property.

3. A high fence has been erected between our property and 67 Saville Road. This is a straight fence, which does not follow the change in height of the ground level. At the end, it is 7ft high, and we feel excessive. We think this should have been included in this planning application. We accept this may have been an oversight.

4. We acknowledge that there will be an extension, but in view of the height of the fence, we hope that the measurements given for the rear extension will be followed.

5. The extension will be in our sight line, as it crosses part of our back garden, so will be visible from our house. We have concerns about the colour of the timber and cladding, and hope it will not be too bright and overbearing as we will have to look at it every day when we look out of our lounge windows.

Kind regards
