Subject: Application No: DM/26/1402

[REDACTED]

I write to register my objection to the application by Naked Farm for a certificate of lawfulness in relation to its intended development of a slaughterhouse (Application Reference DM/26/1402).

I am writing to express my serious concern that the granting of the present application may have the effect of preventing, or materially limiting, proper and meaningful public scrutiny of the proposed development and, in particular, any future proposal to establish a slaughterhouse on the site.

In my view, the proposed use of the land as a slaughterhouse would constitute a material change from its existing use. Such a change has the potential to give rise to a range of substantive planning considerations, including matters relating to the nature and intensity of the proposed use, traffic and access, noise, odour, environmental impacts, operating hours, amenity, and the wider impact upon the surrounding area. I therefore consider it important that any proposal to introduce a slaughterhouse use should be subject to the appropriate planning process, with full public consultation and the opportunity for interested parties to consider the detailed proposals and make representations.

Accordingly, I respectfully invite the Council to refuse the present application, insofar as granting it may facilitate or enable the introduction of a slaughterhouse use without that use itself being subject to proper planning scrutiny and public consultation.

For the avoidance of doubt, should Naked Farm subsequently submit a separate application for planning permission for the development or operation of a slaughterhouse on the land, I would consider the details of that application carefully before determining whether to make formal representations or objections. However, I wish to make clear at this stage that I regard it as particularly important that I, and other members of the public who may be affected, are afforded a proper opportunity to examine any such proposal and to register any substantive planning objections arising from it.

I therefore respectfully ask the Council to ensure that the present application does not have the effect of circumventing the normal planning process or depriving the public of a meaningful opportunity to scrutinise and comment upon any future proposal for a slaughterhouse on this site.

Kind regards,
